## Shelf Edge Merchandising Hook

Use on gondola runs at shelf edge to maximise selling space. Promote impulse purchasing while creating "Secondary Sightings" the unit holds two Hang Strips on self contained hooks as shown. Metal construction with black powder coated finish. Suitable for Tego or Eden shelving as the units are fixed with a screw & wingnut through holes in the front "U" channel on either side of the shelf.

**Code:** MET 03

## Merchandising Hang Strip & Hook

For use on shelf edge or for hanging products on the edge of displays. The main purpose is for secondary sighting of products, which in turn promotes impulse purchases. One suggested way of fixing the merchandising strip is to use an "S" Hook 50mm for hanging displays. This strip is only suitable for light weight products such as bagged crisps, sweets or blister packs. There are 12 hooks to a strip, in a length of 646mm and the colour of the strip is transparent. **Code:** 601-145

**Description:** White Plastic Hook for hanging above Merchandising Hang Strip on displays or shelf edge. **Code:** 601-254

# SimpleClick Fresh

## Spring Loaded Pusher System

...Striking  
Presentation  
Generates  
Sales

...Designed for chilled produce presentation

## Why SimpleClick Fresh?

- Better presentation increases impulse purchasing.
- Improves stock management on shelf by maintaining discipline of category.
  - Promotes Stock rotation
  - Reduces waste
- Maintains fully faced off shelf even when shelf stock is low.
- Product always faced off, gives improved shop-ability for shopper.
- Product presented at shelf front provides greater range visibility to the shopper.
- Allows shopper to find product easily.
- Instant identification of off sales.
- Reduces re-stocking time and labour costs.
- Enhances the organisation and image of the category.
- High front rail system is designed to reduce visible residues on shelf, therefore presenting a cleaner shelf to your customer. The high rail system is also designed to allow the whole system (when de-merchandised) to be removed in one piece for cleaning purposes.

Code: CP PA-1009 + CP PA-1010

**Fresh Presentation Large back support** For use when large products are difficult to push, such as Pizzas, Garlic Breads & cling film type packs. A spring loaded pusher can still be used to provide support if wanted, but may not be as effective.

Code: CP PA-1009 + CP PD-6014

# NEW SimpleClick Universal "T" System

Some products need more solid based dividing systems for optimum presentation, easy refilling and fast facing up. Especially round shaped products needed a solution, when facing up, for faster merchandising of shelves and pusher systems that perform to their optimum. For these kind of products SimpleClick designed a new and innovative solution, the SimpleClick Universal T-divider with solid base. Because of this solid base the divider is rigid and unbendable in practise. This provides all difficult, shaped products the assistance for perfect product presentation, also creating a time saving when stocking and facing up your merchandise.

*...Designed for main floor grocery shelving.*

**Universal Base "T" Divider 60mm** For use when pushing products to provide automatic facings. Can be used with below divider as front profiles are identical.
