Always Bringing More...

Safeguarding Your Staff

It is important to ensure that we protect everyone who relies on us and do our best to minimise exposure when working.

The Protective Face Shield is the perfect way to ensure that your staff are shielded comprehensively to help prevent the spread of viruses therefore protecting both employees and customers.

Effective Design

Using a one-size-fits-all black cap, our Protective Face Shield is attached to the visor to maximise protection whilst having no limitations on normal activities.

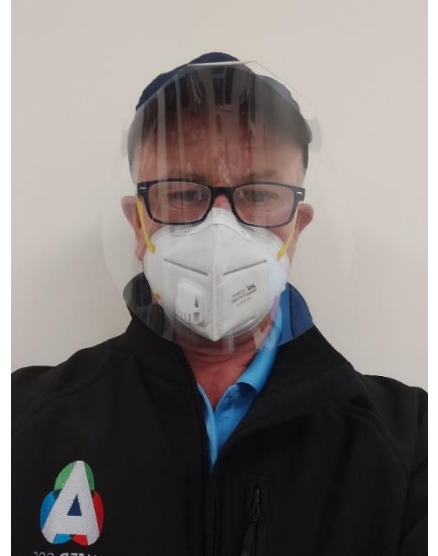

The 300 mic clear polypropylene is versatile and almost unnoticeable whilst being used. The Protective Face Shield is also easy to clean and sanitise regularly.

For enquiries or more information, please contact our team at:

sales@alliedpointofsale.ie

Features

- No additional pressure to top or back of ears.
- Customers still have that friendly face to see
- Suitable for staff that wear glasses or also want to wear a mask
- No direct visor contact with the skin, reducing irritation
- Wraps around to the side for better face covering
- Replacement visors available
