Shelf merchandising & POS solutions for retail

Assortment catalogue

On Shelf Merchandising & Point of Sale 2024

The acquisition of Allied POS by HL Display has added many exciting and innovative display solutions to our local offer. We help our customer to create a better shopping experience, improve profitability and sustainability.
With a passion for retail development and pride in execution, we partner with our customers to grow sales, inspire shoppers, drive automation, and reduce waste.

About HL

HL is an international supplier of store solutions for improved customer experience, profitability, and sustainability. HL's offer includes products within store communication and merchandising solutions as well as lighting systems, secondary display and bespoke solutions and services. Our solutions are installed in 330,000 stores in more than 70 markets around the world and we are proud to be partners of the biggest retailers and brands.

Labor Savings - Shelf Merchandising…

Shelf automation frees up staff from repetitive tasks

Up to 45% of staff hours are related to shelf management such as replenishment or price adjustments - Up to 50% of in-store tasks could potentially be automated

Table of contents

Multivo™ Max The low maintenance pusher system when extra strength is needed.

Multivo™ Max ensures well-merchandised shelves and efficient space usage while saving time on daily shelf maintenance.

Key benefits

➢ Automated front-facing for more efficient shelf management

➢ Suitable for a variety of packaging formats & sizes

➢ Easy to install and maintain

Flexible merchandising for various packaging formats & easily installed

Given the large number of SKUs in many categories such as chilled foods, ensuring product visibility even through busy trading hours is key.

Creating more product visibility & shop-ability, while providing operational benefits, as less time will be needed to maintain shelf or display integrity.

Multivo™ Max Piece Parts

Multivo Max™ with two metal dividers
A straight, upright pusher to be used at the end of each shelf. One double divider pusher per shelf. Adjustable in width from 110-250mm. Contact our office for further details or advice from our sales team.

Multivo Max™ with one metal divider
A straight, upright pusher to be used at the end of each facing. Adjustable in width from 110-250mm. Contact our office for further details or advice from our sales team.

Multivo™ Magnetic Front Rail
Used to mount Multivo™ on metal shelves. Comes with a strong magnetic base for positioning on shelf.

Facer™   Front-faced in one pull

Facer™ is a width-adjustable steel frame, placed on shelf hidden behind a front riser - simply lift the frame, pull forward, put the frame back into place.

Key benefits

➢ Simplified refilling and front-facing, save 38% on shelf merchandising

➢ Lowers risk of over-stocking and broken bottles

➢ Keeps products aligned

Implement Shelf Discipline & Stop Product

Fanning at the rear of Shelf

Facer™ frames reduce the risk of overfilling and damaging bottles while ensuring well-merchandised products and can be used in almost any category. Each lane of bottles or cans are maintained in a width-adjustable steel frame hidden behind the front riser, which stops facings increasing or product fanning, towards the back of the shelf.

The frames are placed directly on the shelf and work whichever way they are installed. To front-face, lift the frame up from behind the riser, pull the frame forward, dragging the products to the front of the shelf and slide the frame back into place behind the front riser.

Multivo™ Piece Parts

Multivo'™ L divider, for left hand side of the shelf, combined with 50mm wide by 65mm high pusher on the right side. The pusher has a plate that extends to the right or fully up to facilitate pushing larger products. One required for each shelf. Available with a medium strength 6 Newton Spring pusher or for more strength 9N Spring may be required for heavier products.
Above divider front also is available with a 20mm front in areas with a tighter shelf height layout.

Multivo'™ T dividers, combined with 50mm wide by 65mm high pusher on the right side. The pusher has a plate that extends to the right or fully up to facilitate pushing larger products. Being a mid-shelf pusher there is one pusher less than the number of facing required per shelf. Available with a medium strength 6 Newton Spring pusher or for more strength 9N Spring may be required for heavier products.
Above divider front also is available with a 20mm front in areas with a tighter shelf height layout.

Multivo'™ L divider, for left hand side of the shelf, combined with 25mm wide by 65mm high pusher on the right side. The smaller size pusher plate facilitates pushing products of 25mm to 49mm in diameter. This pusher can be used multiple times on a shelf if required.
Above divider front also is available with a 20mm front in areas with a tighter shelf height layout.

Multivo'™ right hand end divider with no pusher. One required for each shelf.

Used to mount Multivo'™ and Multivo'™ Max on metal shelves. Comes with a strong magnetic base for positioning on shelf.

Roller Track™

The shelf-ready gravity feed system
that ensures well-faced shelves and
a higher level of product visibility.

Key benefits

➢ Avoid perceived out of stock with automated front-facing
➢ Suitable for variety of packaging formats and sizes
➢ Easy to install, use and maintain

Roller Track™ can be installed directly onto your current shelf, on angled shelves or used with angle provider for flat shelves. It will help maintain good stock rotation and detect empty facings instantly. Sheets come in different widths, depths & a variety of Front Risers. Dividers would be recommended to keep the integrity of the shelf plan to ensure easy refilling, facilitate stock rotation & easily highlight off sales.

Sigma™

Create an inspiring visual shopping experience in Fruit & Vegetable Chilled

Sigma™ creates abundant-looking display without need for large inventory that can be lost to shrink.

Shelving and racking units made of anodized aluminium that will never rust, peel, chip or flake.

Key benefits

➢ Drives sales – up to 30% sales increase in test stores

➢ High durability, light and easy handling

➢ Create disruption within a signpost category

Improve both profitability and sustainability

Fresh produce is a destination category, signposting quality and driving traffic to store.

As concerns around food and packaging waste are increasing, the category offers an opportunity for retailers to showcase their commitment towards sustainability by merchandising fresh produce without packaging.

With the right merchandising systems such as Sigma™, retailers can create stunning display, reduce food waste, and increase sales and profitability.

Recommended Category

• Chilled Fruit & Vegetable

A food safe merchandising system for chillers

Effective cooler circulation with aluminium shelving.
Aluminium is one of the best conductors of temperature, drawing out and dissipating heat quicker than steel, which ensures effective cooler circulation and maximises refrigeration air flow.

Sigma™   Products Flexibility & Combinations

Four High Block Merchandised POD - Curved design encourages impulse purchases with produce closer to the customer and provides a stunningly dramatic profile for full length wall cases. Fits chiller bay size: Width 1250mm. .   Kit Contents as listed below:
